MEMBERSHIP BENEFITS

How CaPAA student memberships work.

With a CaPAA student membership, your child will receive free and reduced tuitions, passes to CaPAA events, ticket upgrades, discounts, special opportunities and much more.

Membership runs from September to June (10 months) and is billed monthly. Your first payment of $150 is due at sign up and covers your first and last month's tuitions. Each month after the initial payment, you will be billed $75 through May of the academic year. These auto payments can be made by credit card which we keep on file or through dated checks.

All of CaPAA policies and rules still apply to student members and regular attendance is required for participation in performances. If a student misses three classes in a semester, it is at the instructors discretion to determine if the student can perform in any scheduled public performances. Your student is still welcomed and encouraged to attend the remaining classes. This is not a punishment. This is our way of ensuring your child and the other children in the classes go into any performance feeling confident and prepared.

Each September and February your student will choose a special benefit for that semester. They can select the added benefit of one of the following:

- $50 off all production fees
- 10% off private lessons
- Free tuition for CaPAA Children's Choir

To start your CaPAA membership just fill out and return this form.
